	CENTRIFUGE TUBES 15 ML	Edited by Lab Analyst
		01-2024

Applications

- Used for immunology and molecular biology research purposes: preparing, transporting, centrifuging and sample storage

Features

- Clear Polypropylene tubes.
- Screw Cap design providing leak-proof closure
- Handle a volume up to 15 ml
- Conical bottom with precise volume marks
- Accurate graduations on side wall for a better filled volume control
- Mechanical resistant to high centrifugal forces:
 - Fixed rotor: up to 10,000 RPM = 11,100 RCF over 10 min
 - Swinging bucket rotor: up to 4,000 RPM = 3,200 RCF over 30 min
- Non-pyrogenic & non-cytotoxic
- Resistant to chemicals
- Cap color may be changed upon request
- Stable at temperature between 0 °C and 55 °C

Sterility

- Can be produced as Aseptic or sterilized with ETO

Product and Packaging Specifications

Product Code	Pcs/Bag	Bags/Box	Pcs/Box	Box Dimension L x H x W (mm)	Average Weight/Box (Kg)
CTS-150	individually wrapped in BOPP film	250	250	304 x 304 x 408 (\pm 10)	1.9
CTS-151	10	100	1000	484 x 344 x 263 (\pm 10)	6.35
CTS-152	25	40			
CTS-155	50	20			
CTS-155B	50	20	1000	484 x 344 x 263 (\pm 10)	6.35
CTS-156	50	50 pcs/Rack	1000	615 x 465 x 270 (\pm 10)	7.5
